

Итоговая контрольная работа – 6 класс

Задание 1. Чтение (6 баллов)

A Long Way to Travel for Your Dinner.

Прочитай текст и определи, являются ли данные утверждения соответствующими (True) тексту или несоответствующими (False)

This is an Arctic tern (крячка). It is not a very big bird. It is only about six inches (16 centimeters) from its bright red beak to its tail. Soon this small bird will begin a wonderful journey. It will fly from one end of the Earth to the other – a journey of about 12,000 miles (18,000 kilometers).

The tern spends the summer in the Arctic, but it can't spend the winter there. It is too cold and there is no food. If the turns stays in the Arctic, it will die.

In autumn the Arctic tern will leave the North Pole and fly south across the equator to the South Pole. When spring comes again in the northern hemisphere, the tern will come back to the Arctic.

How do these small birds make this wonderful journey? We don't know the answer. Perhaps they use the sun, the moon and the stars as a compass. If it is cloudy or foggy, the birds will not migrate.

In its life, an Arctic tern travels as far as to the moon and back. That's a long way to travel for your dinner!
